**Summer Term 2: Edition 2**

**Friday 12<sup>th</sup> June 2026**

This week, the children have been exploring *The Very Hungry Caterpillar* through a range of exciting activities linked to the story.

The children enjoyed using playdough to mould their own caterpillars, developing their creativity and fine motor skills. They also completed caterpillar counting worksheets, helping to build their confidence with number recognition and counting.

As part of our discussions about healthy eating, the children took part in a healthy and unhealthy food sorting activity. They enjoyed talking about different foods and learning which foods help keep our bodies healthy and strong.

The children got creative by making colourful caterpillar collages and decorating their own caterpillars using a variety of craft materials. They were proud to share their unique creations with their friends.

To explore symmetry, the children created beautiful butterfly paintings by folding painted paper to reveal matching patterns on each wing. They were excited to see the colourful results and learn about how butterflies have symmetrical wings.

We are very proud of all the children for their enthusiasm and participation this week. Thank you for your continued support, and we look forward to another exciting week ahead!
