Summer Term 2: Edition 3

Friday 19th June 2026

This week, the children have been enjoying a range of exciting activities linked to our story theme, Goldilocks and the Three Bears. Through play and exploration, they have developed their communication, mathematical, creative and fine motor skills.

The children used playdough to create their own family of three bears. They carefully rolled, squeezed and shaped the playdough to make the 3 bears. This activity helped to strengthen hand muscles and develop fine motor control.

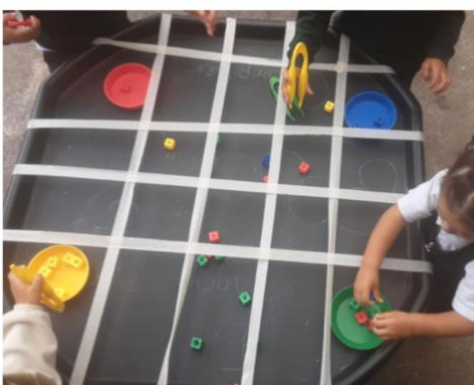

The children enjoyed decorating their own bear pictures using a variety of colours and materials. They showed great creativity and independence while creating unique designs inspired by the story.

Our sensory tray was filled with pasta for the children to explore. They enjoyed scooping, pouring, sorting and investigating the different shapes and textures, developing their sensory awareness and language skills through hands-on play.

The children sorted bears according to their colours and sizes. They worked hard to identify similarities and differences, using mathematical language to describe and organise the bears into groups.

The children had lots of fun decorating bear masks using a range of craft materials. They were proud of their creations and enjoyed expressing their individuality through their designs.

In Maths, the children explored the concepts of small, medium and large. They compared objects and used size vocabulary to describe and order items, helping to develop their understanding of measurement and comparison.

The children brought the story to life through role play, taking on the roles of Goldilocks and the three bears. They enjoyed acting out different parts of the story, helping to develop their imagination, confidence and communication skills.
