

This week our story focus was 'The Three Billy Goats Gruff'. The children thoroughly enjoyed listening to the story, joining in with repeated phrases and talking about the characters. We explored the story through a range of engaging activities that helped develop the children's language, creativity and problem-solving skills.

The children enjoyed using playdough to mould their own goats, carefully rolling, squeezing and shaping the dough. This activity helped to strengthen their fine motor skills while encouraging imaginative play and creativity.

The children had a lot of fun during our water play activity, especially in the warm weather. The children loved pouring, splashing and exploring with different containers while developing their communication, sharing and problem-solving skills.

In our Maths activities, we practised recognising and comparing different sizes by sorting goats into small, medium and large. The children worked hard to identify the correct order and confidently used mathematical language throughout the activity.

The children also enjoyed decorating their own goats, using a variety of colours and materials to create wonderful designs. It was lovely to see each child's creativity shine through as they proudly shared their finished work.

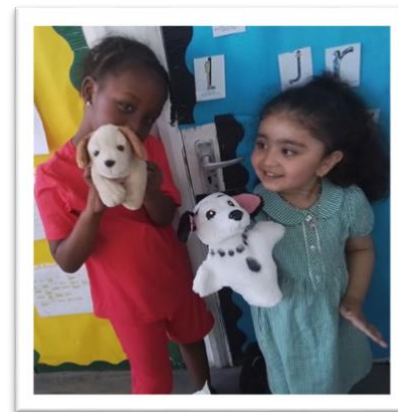

To make the most of the sunny weather, the children were treated to a delicious ice cream, which was enjoyed by everyone and brought lots of smiles.

Islamic and Arabic Studies

This week in Islamic Studies, the children learned about Uthman Ibn Affan رضي الله عنه and the great importance of giving charity. They continued practising the Duaa to recite when drinking milk.

In Arabic, the children continued learning the names of animals in Arabic. They took new vocabs : كلب-Dog / بقرة-Cow
